DESIGNED TO DELIGHT™

The Epitome of Ultimate Laundry Care Has Arrived.

Change the Way You Wash with Intuitive and
Sustainable Laundry Care.

THE MOST ADVANCED AND INTUITIVE WASHING TECHNOLOGY AT YOUR FINGERTIPS

The 360° BloomwashWorld Series washing machine features revolutionary technology that senses laundry conditions and adapts the way it cleans with its unique 360° Tumble Motion. Every corner of the fabric is thoroughly and gently cleaned with every wash.

6TH SENSE TUMBLECARE TECHNOLOGY

Intelligent Sensors detect the size of each load and automatically adapt resources that offer up to 50% of savings on electricity, water and time. The load is continuously monitored throughout the wash cycle for optimal washing performance.

ECO SPRAY

Along with the H₂Low Shower, the new Eco Spray brings in even further rinse improvement and more water savings. It provides 15%* further reduction in water consumption in a system that already uses far less water than other top loaders.

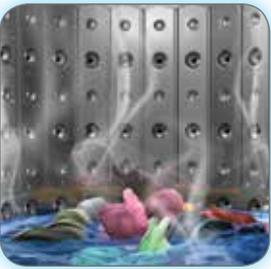

H₂LOW SHOWER

The Whirlpool 360° Bloomwash uses a strong hydro-shower to loosen dirt particles. It provides superior cleaning and rinsing as detergent and water is sprayed to penetrate every corner of the fabric.

BABY CARE

The Whirlpool 360° Bloomwash with Smart Softener Dispenser automatically dispenses the softener during the wash cycle, ensuring your clothes are not just clean but also soft and fresh.

CATALYTIC SOAK

The Whirlpool 360° Bloomwash uses 1/3* the water in comparison to other automatic washing machines. The concentrated detergent solution is catalysed by heating for the best and most efficient soaking results. The 60°C concentrated HotWash also eliminates 99.9% of bacteria from clothes for a germ-free wash.

QUIET COMFORT TECHNOLOGY

The built-in noise cancellation dampeners, along with a thicker cabinet and the hockey stick pattern ensure a noise-free wash.

**FOR THE GOOD LIFE.
TRUST TECHNOLOGY
THAT MAKES A MARK,
NOT STAINS.**

The new Stainwash Ultra and Stainwash Deep Clean powered by 6TH SENSE Technology with 60°C HotWash remove up to 25 tough stains* and provide 99.9% germ-free clothes. Live well. Forget the stains and let technology make its mark.

25

**REMOVES UP TO 25
TOUGH STAINS***

The machine heats the water through a special 6-step process to carefully and thoroughly remove up to 25 tough stains* such as fruit juice, coffee, tea & chocolate.

60°C

60°C HOTWASH

The built-in heater heats the water up to 60°C, ensuring removal of tough stains and providing 99.9% germ-free clothes*.

ZPF TECHNOLOGY

The technology fills the tub 50% faster, even when the water pressure is as low as 0.017MPa*. It also has the fastest drum fill time of 5 minutes.

*Results shown are based on internal lab testings done on selected models under standard conditions. Results may vary depending on test conditions and actual usage.

SPECIFICATION
