Features & Benefits

	<p><Cook3> Cook on three different dishes at the same time thanks to a special airflow that avoids aroma mixing.</p>
	<p><Turbo Grill> Fan grilling technology that cooks quickly and more evenly with a boost of hot air surrounding the grill zone. This feature has been designed to create a spit roast effect, so even thicker pieces of meat are crisp on the outside and tender on the inside.</p>
	<p><Fan Forced Air System> A quick and easy cooking method that doesn't require pre-heating. The fan distributes hot air evenly to all parts of the oven and even allows you to cook different foods simultaneously without mixing taste or smell.</p>
	<p><Smart Clean> Innovative SmartClean technology cleans the oven thoroughly and efficiently, leaving no odours and without requiring a detergent. SmartClean technology works together with an easy-to clean special enamel and offers a dedicated cycle that always delivers perfect cleaning results.</p>
